Description

Specialized training in geriatrics and geriatric mental health is essential to meet the healthcare and educational demands of the growing elderly population. It is also important that the current and future workforce understand the diversity of this population (e.g., ethnicity, race, geography, income, language ability) and be prepared to participate with interprofessional teams in a range of clinical settings (e.g., nursing homes, assisted living facilities, hospitals).

The Consortium of New York Geriatric Education Centers (CNYGEC) pursues the objectives set forth by Health Resources and Services Administration (HRSA) through a multi-faceted, competency-based, clinically oriented training initiative; drawing on the alliances of our CNYGEC partners, geared to interprofessional teams of healthcare professionals, students, and faculty throughout New York State.

We train healthcare professionals in the diagnosis, treatment and prevention of acute, chronic and life-threatening diseases, disabilities and other health problems of older New Yorkers.

To implement this comprehensive training initiative, CNYGEC draws on the extensive experience of our three academic partners, which include Brookdale Department of Geriatrics and Palliative Medicine of the Icahn School of Medicine at Mount Sinai, New York University College of Nursing, and Columbia University’s College of Physicians and Surgeons.

CNYGEC is also part of the NYS Coalition of GECs, which includes Finger Lakes Aging. CNYGEC is also part of the NYS University’s Stroud Center for University’s College of Nursing, and Columbia Medical School.

It is also important that the current and future workforce understand the diversity of this population (e.g., ethnicity, race, geography, income, language ability) and be prepared to participate with interprofessional teams in a range of clinical settings (e.g., nursing homes, assisted living facilities, hospitals).

Funding

Most of the funding for this program is provided through a grant from the U.S. Department of Health and Human Services, HRSA (Federal Grant #H84HP19144) to Icahn School of Medicine at Mount Sinai, Brookdale Department of Geriatrics and Palliative Medicine.

Faculty Disclosure

It is the policy of Icahn School of Medicine at Mount Sinai to ensure objectivity, balance, independence, transparency, and scientific rigor, and in all CME sponsored educational activities. All faculty participating in the planning or implementation of a sponsored activity are expected to disclose to the audience any relevant financial relationships and to assist in resolving any conflict of interest that may arise from the relationship. Presenters must also make a meaningful disclosure to the audience of their discussions of unlabeled or unapproved drugs or devices. This information will be available as part of the course material.

Accreditation

This activity has been planned and implemented in accordance with the accreditation requirements and policies of the Accreditation Council for Continuing Medical Education (ACCME) through the joint provisionship of the Icahn School of Medicine at Mount Sinai and The Consortium of New York Education Centers. The Icahn School of Medicine at Mount Sinai is accredited by the ACCME to provide continuing medical education for physicians.

The American Nurses Credentialing Center’s certifying body accepts CME hours for nursing re-certification.

Verification of Attendance

Verification of attendance will be provided to all attendees.

1. Working with Older Stroke Patients**
   1/28/15 - Bronx, NY

GERICR SCHOLAR CERTIFICATE (GSC) (35 hours)

Participation in this program reflects an individual’s commitment to enhancing the care and services provided to older adults. Geriatric Scholar Certificate seminars are aimed at improving and expanding geriatric healthcare, particularly for low-income, multi-ethnic and underserved older adult populations.

Participants are awarded the Geriatric Scholar Certificate after completing a five-day interdisciplinary program consisting of three “Core Days” and two “Elective Days” of training, which are available through face-to-face and online learning opportunities.

Core Training:

Training hours: 8:00 am – 4:00 pm unless noted otherwise.

FACULTY TRAINING

The Geriatrics Education Center (GEC) Faculty Development Collaborative (160 hours)

This program is geared to improving skills in teaching, leadership and project development and implementation, clinical care, and research. A variety of teaching and learning methodologies are used including self-study, synchronous and asynchronous webinars, virtual journal club and case-based discussions, career development with mentoring, and completion of an individual capstone project related to a curriculum or quality improvement initiative. The collaborative draws on resources and expertise from the Consortium of NY GECs, New Jersey GEC, Gateway GEC of Missouri and Illinois, and the Central Plains GEC of Kansas.

A program certificate will be awarded by the Collaborative upon satisfactory completion of the 160-hour curriculum.

This program does not offer CME credits.

Please contact Jacob Deering at Jacob.deering@msm.edu for more details and eligibility requirements.

Please note: The Learning Curve, co-sponsored with the Arkansas GEC and the VA Office of Rural Health, is a series of professional development webinars. Previous webinars are available at www.tgpo.ge.org (product ID 20883). New webinars will be announced at www.nygec.org.

Application Deadline
   12/31/14

Application Notification
   01/15/15
