Understanding Lewy Body Dementia

Hosted with The Lewy Body Dementia Association

September 22nd • 5:30–7 pm

THIS PROGRAM WILL BE HELD VIRTUALLY.

Angela Taylor

Angela Taylor is the Senior Director of Research and Advocacy for the Lewy Body Dementia Association. She plays a hands-on role in LBDA's Research Centers of Excellence program, patient engagement, and educational initiatives.

Join the Alzheimer's Association and the Lewy Body Dementia Association to learn about Lewy Body Dementia (LBD). LBD, also known as dementia with Lewy bodies, is the second most common type of progressive dementia after Alzheimer's disease dementia.

Topics covered will include:

- Overview of Lewy body dementia
- LBD symptoms, diagnosis, and treatments
- Current research priorities
- Insights from an LBD caregiver
- Lewy Body Dementia Association resources
- Alzheimer's Association resources
- Open Q&A session

Check-in: 5:20pm

Program Starts: 5:30pm

PRE-REGISTRATION IS REQUIRED.

Call 1.800.272.3900 to pre-register, or register online at the link below:
