Pain-Me-Free Game

A new online educational game, for the assessment and management of PAIN in the older adults, that virtually positions its players in a hospital setting with different case scenarios where players engage with a team of interprofessionals.

The PainGame is from the South Texas VA

How to Register:

Log onto www.gerischolars.org and create a free user profile. You may then enroll in any course at no cost. The PainGame is located in the Chronic Disease Course under Care Coordination
